

Oddity (2024)

Description

A Chilling Exploration of Haunted Objects and Hidden Secrets

“Oddity,” Damian Mc Carthy’s follow-up to his unnerving debut “Caveat,” is a masterclass in sustained dread and creeping terror. The film revolves around a potentially supernatural life-size wooden [man](#) and the mysteries that surround its presence. Mc Carthy’s patience as a filmmaker shines through as he builds unease without resorting to cheap scares, resulting in a film that is both unsettling and deeply engaging.

“Oddity” begins with Dani (Carolyn Bracken) alone in an old stone country house. One night, there’s a loud knock on the door. A man with a glass eye (Tadhg Murphy) urgently warns her that she is in danger. The film then jumps a year ahead, revealing Dani’s mysterious death. Her widower Ted (Gwilym Lee) visits Dani’s blind twin sister Darcy (also played by Bracken), who runs a curio shop. Ted brings Darcy the glass eye, hoping she can use her ability to “read” objects to uncover the truth about Dani’s death. The narrative then follows Ted and his new girlfriend Yana (Caroline Menton) as they spend a weekend at the renovated stone house, with Darcy making a surprise visit, bringing along a life-size wooden man.

Paul McDonnell’s design of the wooden man is terrifying, with a face frozen in agony. The wooden man becomes a central figure in the film, its presence adding to the house’s eerie atmosphere. Mc Carthy masterfully uses the setting to [create tension](#), with the house itself becoming a character in the story. The production design by Lauren Kelly and cinematography by Colm Hogan enhance the film’s unsettling mood, using shadows and static frames to build a sense of menace.

The film’s [cast delivers outstanding performances](#). Carolyn Bracken excels in her dual role, making

Dani and Darcy distinct yet connected characters. Gwilym Lee's portrayal of Ted, a doctor at a hospital for the criminally insane, adds layers to the story, while Caroline Menton convincingly transitions from annoyance to terror as Yana. The film's pacing, though deliberate, allows for the unease to build naturally, drawing viewers into the mystery and [horror](#).

"Oddity" explores themes of grief, guilt, and the supernatural. The film blurs the lines between reality and the paranormal, leaving viewers questioning the nature of the wooden man and the events that unfold. The connections to Mc Carthy's previous film, "Caveat," add a layer of continuity, with the glass eye serving as a symbolic link between the two films.

Strengths:

- Masterful use of tension and atmosphere
- Strong performances, particularly from Carolyn Bracken
- Innovative production design and cinematography
