A Psychological Thriller That Buzzes With Tension

After watching “The Wasp” (2024), directed by Guillem Morales, I found myself reflecting on the film’s impact and how it [resonated](#) with [audiences](#). This [psychological thriller](#), adapted from Morgan Lloyd Malcolm’s acclaimed play, features Naomie Harris and Natalie Dormer in lead roles. Both actresses deliver standout [performances](#) that many [viewers](#) have [praised](#). Harris portrays Heather with emotional depth, encapsulating her character’s fragility and hidden fierceness—a performance some are calling career-defining. Dormer, meanwhile, brings a raw intensity to her role as Carla, making her character both sympathetic and terrifying. Their chemistry is electric, and it’s clear that audiences appreciated this dynamic.

Morales’ [direction](#) effectively maintains [tension](#) and suspense, a critical element for any thriller. Viewers often commented on the film’s ability to create a thick atmosphere of unease, with many feeling on the edge of their seats as the story unfolded. However, the screenplay has been a point of contention among critics and audiences alike. While some viewers appreciated the clever twists and thematic depth, others felt that the [plot](#) sometimes became too gimmicky and lost its focus. The heavy-handed symbolism—especially the use of wasp behavior as a metaphor—was noted by several reviewers as being overly obvious, which overshadowed some of the more nuanced elements of the narrative.

The plot revolves around Heather approaching her childhood friend Carla with a dark proposition: to help her kill her husband. This suspenseful journey is filled with dark humor and intense moments that kept many viewers glued to their screens. The exploration of themes like childhood trauma and unresolved grievances resonated with audiences, adding layers to the [characters](#)’ motivations and actions. Many found the film’s dive into the complexities of friendship, loyalty, and betrayal particularly engaging.

However, it's important to note that the film's numerous twists sometimes felt excessive to viewers, detracting from the overall impact. As the story progressed, some viewers expressed that it seemed to try too hard to surprise the audience, leading to confusion rather than clarity. Additionally, some found certain scenes—especially those depicting sensitive topics like sexual abuse—too visceral, which resulted in discomfort rather than the intended empathy. The film's attempt to balance various genres—comedy, suspense, drama, and horror—was also noted as a potential stumbling block, with some feeling the film struggled with its identity.

Visually, "The Wasp" is well-crafted, and audiences noted how the cinematography captures both the claustrophobic settings and the emotional turmoil of the characters effectively. The use of lighting and color contributed to the unsettling atmosphere, enhancing the sense of dread that permeated the storyline. Many viewers admired the way the camera lingered on the characters' expressions, which added depth to their performances. The score plays a significant role in building tension, with haunting melodies that linger long after the credits roll.

While the film thrives on the strength of its [lead performances](#) and its ability to sustain suspense, it struggles with a screenplay that occasionally tries too hard to surprise. The heavy-handed symbolism and excessive plot twists may frustrate some viewers, but many still see it as a thrilling experience anchored by strong performances.

Overall, I would rate “The Wasp” a solid 3.5 out of 5. It offers a unique and darkly humorous take on friendship and betrayal, bolstered by stellar performances from Harris and Dormer. The film has its flaws, but the intensity of the performances and the gripping atmosphere make it a memorable addition to the [psychological thriller genre](#).
